**Future City at Nationals**

Team Star Je Novi Mladi had a fantastic time in Washington D.C.! Our team was at the top of their game, and they made us proud! While we did not bring home any more trophies, we scored higher than we did at the Minnesota Regionals, and we finished 14th out of 44 teams from across the US, Canada, and as far as away as China! Not bad for our first time! We also learned a TON of things to do for next year. We look forward to competing hard next year and returning to D.C.!

The team would like to thank EVERYONE that helped us out along the way, but especially Ms. Wender for making our good presentation great, and their sixth and seventh hour teachers for being so understanding as they missed class to rehearse!

For more photos of our trip, as well as a video of our final presentation, please go to JPMS STEAM on Twitter @JPMSSTEAM, or on Facebook @JPMSSTEAM.

**JPMS Speller Advances to Regionals**

**JPMS in Debate Tournament**

FROM: Minnesota Urban Debate League

Greetings from The Minnesota Urban Debate League! We want to congratulate your students for their performance at the Oprah Winfrey Middle School Debate Tournament at Central High School.

Coaches Cecilia Cosgrove and Grace Klage have worked hard with your students, and it shows!

It was the first tournament of the year for these debaters, but they were not intimidated. Congratulations to Dominick Navarre & Victor Sanchez, who both earned speaker awards in the novice division. The debaters who earn speaker awards have been given the most points to recognize superior research and argumentation skills, so this is an impressive accomplishment! Congratulations, also, to Winona Waterman.

We’re so glad that Justice Page Middle School’s students came to debate with us. Thank you for your support. We can’t wait to see what they’ll do next!

Editorial: Breakfast Outrage

BY: Caroline Claeson

The school breakfast used to normally consist of some sort of hot food along with the classic apple slices, orange juice, milk and other usuals. However, now rather than having Cinnamon Toast Crunch, Raisin Bran, Frosted Mini Wheats, and Multi Grain Cheerios, they instead just have Raisin Bran and gluten-free Cinnamon Chex! The cinnamon doesn't even cover all of the Chex! Half of the so called “Cinnamon flavored” Chex don't even have the cinnamon flavor they are advertising. It just tastes like your run of the mill bland tasteless cereal.

$1000 To Share

BY: Kayana Smith

If I had to give 1000 dollars to someone, I would give it to my mom because she always does a lot for me and she would deserve it. If I had to give to another person, it would be my grandma because she loves me, and if I ever needed something from her, I know she would give it to me and help me with my problems.

Ruby Bridges: A Human Rights Leader

BY: Jazmine Rush

Can you imagine in the 1960s, people were so mean that they discriminated against a little girl? Ruby Bridges changed the town by going to an all white school.

Ruby was 6 years old when all this happened. She went to William Frantz Public School on November 14th, 1960. She was living in New Orleans, Louisiana. She is an African American. Ruby bridges was born September 8, 1954. Ruby is important because she never gave up. Article#23 universal declaration of human rights (udhr)

Don't discriminate: she kept going and never gave up hope. Ruby kept positive. Ruby focused on her school and graduated and wrote a book about her life. Ruby started the Ruby Bridges Foundation.

What I learned about Ruby Bridges was that although her family was poor, Ruby always preserved through the changes and never gave up hope. She never gave up hope to believe there's good in those people that hate and love. I think she changed history and I want to change history by stand-up for equality. And also by being the best kid singer or woman. Ruby Bridges a human rights leader.

The Princess Saves Herself

BY: Angela Collazo-Tamayo

You know when princesses always get saved by a true love’s kiss, a fairy, or a prince? Well that’s not what happened here.

Part 1

Christine and Stephen were the Queen and King.

They faced off many challenges, like villains trying to take away their territory. After 3 years of being married the Queen and King had a child named Charlotte. She was a lovable little girl. When she turned 3 she was already practicing being the queen. When she turned 5 she was very curious of everything around her, at age 10 she loved helping people. When she turned 13 she made friends with the whole village. At age 15 she went to the forest all alone, and that’s when it all started.

She loved looking at all the little plants and the huge trees, and when it was winter she always went sledding at her favorite part of the forest, and her favorite part of it is in the middle of the whole forest cause there’s a deep pit, and that’s where she slides. When it’s summer she likes rolling down the pit, and when she gets up all the flowers are on her hair. She loves going into the forest, but her parents have already warned her that it could be dangerous in there. But she didn’t mind. She said she was 15 and she could take care of herself.

Or could she...

The next day came by, and she went into the forest at about 5:30 p.m. She told her parents she’ll be back in an hour. Went she went to her favorite spot she spotted a slug. She laid on a rock to watch it slither, but she didn’t notice how tired she [was, and she] came home from school and she fell asleep.
